

Profile

As a detail-oriented Software Developer proficient in React and Node.js, I bring a wealth of experience and dedication to every project. With a passion for problem-solving and a drive to deliver impactful solutions, I thrive in dynamic team environments. I am committed to continuous learning and growth, always seeking to expand my knowledge and skills in software development.

Skills

Skilled in HTML5, CSS3, and JavaScript, I excel in creating dynamic web applications. Proficient in REST API interactions using Fetch and axios, I bring a strong foundation in TypeScript and object-oriented programming (OOP) for code robustness. Experienced in front-end libraries like React, with expertise in state management through Redux, RTK Queries, and Redux-Toolkit. Well-versed in Redux-Thunk and skilled in navigating with React Router Dom. Capable of managing state using mobX and creating visually appealing interfaces with Chakra UI. Passionate about creating inclusive and globally accessible web applications, I prioritize internationalization (i18n) to cater to diverse user bases. Adept at version control with Git and experienced with collaborative platforms like GitHub/GitLab. Additionally, I have proficiency in backend development utilizing Node.js, Express, and database management with MySQL.

HTML5, CSS3, JAVASCRIPT, REST API, AXIOS, TYPESCRIPT, OOP, REACT, REDUX, RTK QUERIES, REDUX-TOOLKIT, REDUX-THUNK REACT ROUTER DOM, MOBX, CHAKRA UI, NODE.JS, EXPRESS.JS, NEST.JS, PRISMA ORM, JWT, PASSPORT, MYSQL, VPOS INTEGRATION, GIT, GITHUB/GITLAB,

Hovhannes Khachatryan

SOFTWARE DEVELOPER

Experience

(2024 February- now)

MFMsoft (USA, Remote)

Work - Full Stack & Automation Developer (node.js, php, mysql)

(2023 September- 2023 December)

PADC LLC (Gyumri, on-site)

InterShip - Front-end Developer (React.js)

Education

(2022-now)

European university armenia

Jurisprudence

(2023 March - 2023 September)

GITC

Front-end development (html, css, js, react, redux, redux-toolkit, and ect...)

(2018 - 2019)

Yandex school

Python programming language

(2016 - 2020)

"TUMO" technologies center

PHP, MySql, Node.js, Wordpress...

Languages

ARMENIAN(NATIVE)

ENGLISH(B1)
